**MEDNET SOLUTIONS RECOGNIZED AS ONE OF THE FASTEST GROWING US COMPANIES**

Minnetonka, MN – MedNet Solutions, a healthcare technology company specializing in clinical study management systems, has been recognized this month by both *Entrepreneur* magazine and *Inc.* magazine as one of the nation’s most rapidly growing companies. MedNet is listed as number 157 on *Entrepreneur’s* “Hot 500” list of entrepreneurial businesses for 2007, and number 2,059 on the “Inc. 5000” list of the United States’ fastest growing private companies.

“It’s truly an honor to be named to both of these prestigious listings,” said Rob Robertson, President and CEO of MedNet Solutions. “Our quick, yet controlled and profitable growth can be attributed to three important factors – the high quality of our technology offerings, the strong business partnerships we have formed with our customers, and the tremendous dedication and hard work of our staff. As our company continues to gain momentum, it’s gratifying to see our efforts paying off and to have our success recognized within the business community. We’re especially proud to be the top-ranked ‘Hot 500’ healthcare company in Minnesota – a state renowned for being a hotbed of medical technology-related organizations.”

MedNet Solutions is a leading eClinical technology solutions company supporting the pharmaceutical, medical device and biotechnology industries. Providing sophisticated, yet highly flexible and extremely easy-to-use Web-based information systems, MedNet helps sponsors and CROs alike deploy efficient and successful clinical studies and registries. Since 2000, MedNet has successfully supported over 50 major customer organizations on projects spanning 5 continents and more than 30 countries. MedNet’s critical insight, proven technology and unwavering support deliver a superior customer experience from beginning to end.
