MEDNET SOLUTIONS AGAIN RECOGNIZED AS ONE OF THE FASTEST GROWING US COMPANIES

Minnetonka, MN – For the second consecutive year, MedNet Solutions, a leading healthcare technology company specializing in clinical study management systems, has been recognized by *Inc.* magazine as being among the United States’ fastest growing private organizations. With consistently strong growth over the past four years, MedNet was the thirty-sixth fastest growing company in the Twin Cities metro area, and fifth among healthcare-related software companies in the Midwest.

“MedNet Solutions is proud to once again be on the ‘*Inc.* 5000’ list,” stated John M. (Rob) Robertson, MedNet Solutions’ President and CEO. “This achievement is a testament to the strength of our technology, as well as the expertise and commitment of our team. It’s especially gratifying that MedNet has achieved this remarkable revenue growth while consistently maintaining profitability year after year. Our growth and profitability, combined with our outstanding customer and industry relationships, means that MedNet is well positioned for long-term success.”

MedNet Solutions is a leading eClinical technology solutions company supporting the pharmaceutical, medical device and biotechnology industries. Applying Critical Insight, Proven Technology, and Unwavering Support, MedNet helps sponsors and CROs alike deploy efficient and successful clinical studies and registries of all phases and types. Since 2000, MedNet has successfully supported over 50 major customer organizations on projects spanning 6 continents and more than 40 countries, with a highly configurable and easy to learn web-based eClinical solution. MedNet delivers a superior customer experience from beginning to end. For more information, please visit www.mednetstudy.com.
