TOP TEN PHARMA COMPANY DEPLOYS MEDNET SOLUTIONS' INVESTIGATOR INITIATED TRIAL MANAGEMENT SYSTEM

Minnetonka, MN – MedNet Solutions, a global life sciences technology solutions company specializing in clinical study management systems, today announced that one of the world's largest pharmaceutical companies has deployed MedNet's Investigator Initiated Trial (IIT) Management System. This system provides a powerful, flexible and efficient solution to manage the entire IIT lifecycle...from proposal to publication...helping to ensure comprehensive, standardized and auditable IIT submissions, decisions and tracking on a world-wide basis.

"We are extremely pleased that MedNet has been selected to deliver the vital technology infrastructure required to fully automate, centralize and streamline the international IIT management processes of this industry leading pharmaceutical organization," stated John M. (Rob) Robertson, President and CEO of MedNet Solutions. "We believe this selection validates MedNet's continued commitment to providing the high level of expertise, technology and support needed to help life sciences organizations achieve operational efficiencies in all aspects of clinical research."

The MedNet IIT Management System delivers robust, highly configurable capabilities that allow pharmaceutical, medical device and biotechnology companies to achieve global IIT management standardization, increased IIT visibility, and reduced IIT program related time and cost expenditures. The solution also delivers the tools needed to shorten timelines from concept submission to publication, minimize redundant studies, and enhance investigator and management satisfaction.
