MEDNET SOLUTIONS NAMED TO THE INC. 5000 LIST OF FASTEST GROWING COMPANIES FOR THE FOURTH CONSECUTIVE YEAR

Minnetonka, MN – MedNet Solutions, a global life sciences technology solutions company specializing in clinical study management systems, is pleased to announce that the company has been named to the Inc. 5000 list for the fourth year in a row. The Inc. 5000, an exclusive listing compiled annually by *Inc.* magazine, recognizes America's fastest-growing private companies.

"With this accomplishment, MedNet Solutions joins the rarified company of enterprises who have appeared on the list multiple times, many of which have grown to be national icons," noted Jane Berentson, Editor in Chief of *Inc.* magazine. MedNet is the fifty-fifth fastest growing company in the Minneapolis metro area, and is ranked eighth among all health-related companies in Minnesota.

"These are very exciting times for MedNet," observed Kevin Anderson, MedNet Solutions' Vice President of Marketing. "With the official release of *iMedNet™* just around the corner, we're looking forward to even greater corporate growth in the months and years to come." *iMedNet* is MedNet Solutions' brand new, next-generation EDC/eClinical technology platform that allows non-technical sponsor and CRO personnel to quickly and easily build and manage their own clinical studies.

"I'm tremendously proud that our company has once again been recognized by *Inc.* magazine and the Inc. 5000 list," stated John M. (Rob) Robertson, President and CEO of MedNet Solutions. "I'd like to thank our incredibly hard working and dedicated employees, as well as MedNet's many loyal customers and business partners, for contributing to MedNet's continued success."

About MedNet Solutions

MedNet Solutions is a leading healthcare technology company specializing in clinical study management systems designed for the global life sciences market.
