MEDNET SOLUTIONS ACHIEVES THE INC 5000 LIST FIVE YEARS IN A ROW

Minnetonka, MN – MedNet Solutions, a global life sciences technology solutions company specializing in clinical study management systems, is pleased to announce that MedNet has once again been recognized by *Inc.* magazine as one of the fastest-growing privately held companies in the United States. MedNet is greatly honored to be included in the Inc. 5000 for the fifth straight year, since, as noted by *Inc.* magazine, “this prestigious list of the nation’s most successful private companies has become the hallmark of entrepreneurial success.”

“This is a tremendous achievement for MedNet,” stated Brian Sweeney, Vice President of Corporate Development, and co-founder of MedNet Solutions. “We are very proud of our ongoing marketplace success, especially in light of the turbulent economic environment over the last several years.”

“Since our company was founded over 10 years ago, we’ve worked extremely hard to provide our customers with highly efficient and easy-to-use electronic data capture and eClinical solutions, backed by a knowledgeable, responsive and friendly professional services team,” commented John M. (Rob) Robertson, President and CEO of MedNet Solutions. “Our year-after-year recognition by *Inc.* magazine is a symbolic confirmation of the success of our efforts. But we’re not resting on our laurels...we believe our best years are still ahead of us. Our recently released *iMedNet™ EDC* solution opens the door on an exciting new chapter for our company.” *iMedNet EDC* is an innovative new SaaS-based eClinical platform that allows non-technical research personnel to quickly, easily and affordably build their own research studies.

About MedNet Solutions

MedNet Solutions is a leading healthcare technology company specializing in electronic data capture (EDC) and clinical study management systems designed for the global life sciences market. Applying critical insight, proven technology and unwavering support, MedNet delivers powerful, flexible and easy-to-use web-based eClinical solutions that effectively support clinical studies, registries and investigator initiated trials. Since 2000, MedNet has successfully supported leading pharmaceutical, medical device, biotechnology, and contract research organizations on clinical research conducted around the world. MedNet delivers a superior customer experience from beginning to end. For more information, please visit www.mednetstudy.com.
